Summary — Web & Software Developer with hands-on experience in full-stack development, hybrid mobile apps, and modern web platforms. Skilled in .NET, C#, React, and WordPress. Adept at creating intuitive user interfaces, backend logic, and robust cross-platform solutions. Proven ability to adapt to client needs, manage multiple projects, and deliver high-quality code. Explore my latest work at my portfolio.

Skills

Languages HTML, CSS, JavaScript, C#, Java, PHP, Node.js
Databases MongoDB, MySQL, SQL Server
CMS WordPress, Joomla

Frameworks .NET Framework, React, React Native, Angular, Next.js, Express, Tailwind CSS, Xamarin
Tools GitHub, Visual Studio, Stripe, EmailJS

Experience

Lexicon Software

September 2023 – Present

Software Developer

- Developed and maintained web applications using C#, .NET Framework (Web Forms), and React Native across multiple projects.
- Specialized in hybrid mobile apps using React Native and Xamarin for cross-platform delivery.
- Created and maintained ****Expires****, a subscription-based web application using .NET Web Forms and SQL Server.
- Built a React Native app for a delivery company that uses a real-time notification system triggered by new orders.
- Developed a parking management app with OCR plate scanning to detect vehicle entries and exits.
- Enhanced and maintained legacy systems like gymmaster.gr, improving performance and UX.
- Created sales tools with Xamarin for ****MoneyFest Manager****, enabling mobile client tracking and transaction management.
- Built an event visitor-tracking app for trade shows (e.g., Horeca) using React Native with embedded WebView for form handling via Web Forms.

Promosales

April 2024 – August 2024

Web Developer (Freelance)

- Designed and maintained responsive WordPress websites using Elementor and WPBakery for various clients.
- Customized themes and plugins including WooCommerce for e-commerce, contact forms, and SEO enhancements.
- Provided ongoing site maintenance, plugin updates, and troubleshooting support.

Education

University of Western Macedonia

B.Sc. Accounting and Finance

University of West Attica

M.Sc. Informatics and Computer engineering

Certifications

- Athens University of Economics and Business (AUEB) - Coding Factory
8-month intensive bootcamp in Software Development
- National and Kapodistrian University of Athens - Web Development
- IBM - IBM Full Stack Software Developer Professional Certificate
- FreeCodeCamp and Microsoft - Foundational C# with Microsoft

Projects

Real-World Web Applications

Expires – Subscription Reminder Platform

.NET Web Forms, SQL Server

- Designed and developed a full web platform to track subscription deadlines and send alerts.
- Built using ASP.NET Web Forms with SQL Server backend and a user-friendly frontend.
- Currently used in production for client-facing operations.

GymMaster – Gym Management System

.NET Web Forms, SQL Server

- Contributed to the development of gymmaster.gr, a membership and activity management system for gyms.
- Implemented specific modules and features to improve user interface and performance.
- Worked within legacy code using ASP.NET Web Forms.

Cross-Platform Mobile Applications

React Native, Xamarin

- Developed hybrid apps using React Native and Xamarin for seamless cross-platform compatibility, including:
 - Delivery tracking app with real-time notifications.
 - Trade show visitor registration app (e.g., Horeca) using embedded WebView.
 - Parking management app with license plate OCR scanning.
 - Mobile sales tool for MoneyFest Manager to handle client transactions.

Personal Projects

Food Web App

React, Redux, Node.js, MongoDB

- Created a mock full-stack e-commerce platform with Stripe checkout and EmailJS notifications.
- Designed responsive UI and CRUD flows for food items and orders.

Social Media App

React, Redux, Node.js, MongoDB

- Built a social media platform demo with user auth, posts, likes, and comments.
- Demonstrates backend architecture, state management, and security best practices.

WordPress Websites

Elementor, WPBakery

- Delivered responsive client websites for **New Design** and **John Spiridis Photography**.
- Integrated custom galleries and forms tailored to each business.
